

February 2021 - Block of the Month

"Personal Slice of Heaven"

National Pizza Day will be held on February 9th, so celebrate your way!

Cut 12 ½" or 14 ½" background fabric. - personal choice!
Cut 10 ½" square of brown/tan
Cut 8 ½" square of yellow/gold
Collect trimmings for toppings.

Prep your dough!!!

Using the 10" arch template, cut as follows:

Fold the brown square in half, and then half again.
Line the 10" arch piece from corner to corner and cut on both sides of the template...unless you are a thin crust pizza person! It should create a 2 1/2" circle, with no center.

Time for the cheese!!

Fold the yellow square in half, and then half again.
Line the 8" arch piece from corner to corner and cut along the outside edge of the template only. It should create a full 8" circle.

Sew the cheese to the dough!! This is the tricky circle part!
*If you chose to use the 9" red arch, sew the cheese to the sauce(yellow to red), then the sauce to the dough! (red to brown)

Iron flat!

The Sauce....yummy!

Use rick-a-rack, ribbon or piping on the seam connecting the cheese and dough, after piecing.

Select your slice!! Take your ruler and find the center of the pizza.
From this spot, cut out a 'slice' from your pizza.

Prep the dish to serve! Attach the 'remaining' pizza to the background piece.

Attach your cut slice about ½" to 1" from the empty space. This will get it that take-away feel.

Now, go back and add your favorite toppings to the entire pizza and slice.

Serve the final quilt to your favorite teenage boy!

***Serving Option: You can use a one inch wide, 11" diameter arch template of silver to attach to the crust to make a pan to cook/serve it on!
