

JAR QUILT

There are three different jar sizes included in this pattern. Make one or make them all!

- Fabric Requirements are listed on the pattern page. Please use **food** fabrics (fruits, vegetables, coffee, tea, spices, candy bars, hard candies, cookies, etc.). We know a cute quilt could be made from other fabrics as well, but we don't want any bugs in our pantry!

All background pieces will be black.

Assume $\frac{1}{4}$ " seam allowance unless otherwise stated.

RST = right sides together

MAKING THE JAR BODY

Start with the jar body (A) facing up. Lay one of the 1.5" background squares (B) in each corner RST and draw diagonal line with heat erasable fabric marking pen (optional).

Sew on the diagonal line. Cut $\frac{1}{4}$ " inch from the diagonal line. Press seam to set it and erase the pen marking. Then press to the light side. (It is unusual to press to the light side, but this is necessary here to help with nesting seams when attaching the lid unit.)

MAKING THE LID UNIT

Place one background fabric (C) unit RST with the lid (D) fabric and sew along the short side. Press to the dark side. Repeat with last background (C) unit and the other short side of the lid. Press to the dark side.

ATTACHING THE UNITS

Lay lid unit on top of body unit RST aligning the lid edges with the jar body corners. If desired, pin in place. Sew units together. Press to one side.

Place background (E) piece RST across side of jar unit and sew. Press to one side. Repeat for second side.

Attach background (F) piece to top of jar body. Press to the dark side.

Each block will measure 9.5" X 14". Please do not trim!
