

FLYING GEESE 3-D BLOCK – December 2023

Fabric Needed:

Scrap Buster (Use contrasting colors) If using red, please prewash.

Fabric Cuts:

Two 4 ½" X 8 ½" rectangles (Geese)

FOLD IN HALF (wrong sides together) TO CREATE

4 ½" x 4 ¼" SQUARES (See Photo 2 below)

Four 4 ½ squares (Background)

The photos below show the fabric and construction for a single flying geese unit. Please make two units in coordinating colors.

Sewing Steps

1. Place the 4 ½" X 8 ½" rectangle with the fold facing the top. Lay it between two of the background colors lining up the cut edge at the bottom (which saves your points above!) Photos 3 and 4 illustrate this arrangement. In Photo 3, the fabrics are separated so you can see the layers. Note the fabric on the bottom is **right side up**, the folded fabric is **right side out**, and the top square is **wrong side up**.
2. Sew ¼" seam through all four fabric layers using a coordinated thread color.
3. Open the center fabric to reveal the goose.
4. Iron flat.
5. Sew the two geese units together using a ¼" seam.

Please do not trim.
